

Dortite® Xtra is a blended neoprene expanded cellular rubber with an aggressive rubber based adhesive.

Uses

This closed cell material can be used for weather stripping, sound and vibration dampening, cushioning, dust proofing and insulating.

Technical Data

Color	Black
Polymer	Neoprene / EPDM
Compression - Deflection	5 – 9 (psi)
Density (P.C.F.) Average	6.0 – 8.0
Water Absorption by Wgt	10% Allowed
Temperature Range	-20°F to 200°F
Shore 00 Durometer	50 (approx.average)
Tensile Strength (psi) min	120.
Elongation % Min.	150

Specifications

ASTM D 1056-68	SCE42
ASTM D 1056-78	RE 42 E1
ASTM D 1056-85 & 91 J18-R 7/92	2C2
U.L. 94 HFI, FMVSS302	Pass

- **LIGHT WEIGHT**
- **ECONOMICAL**
- **WATER RESISTANT**
- **EASY TO USE**
- **U. L. 94 HF1**

Application

Temperature	Above 40°F
Method	Trim to fit, remove release liner. Apply to clean, dry surface
Preparation	Area is clean from debris and oils

Storage

Temperature	Moderate conditions
Shelf Life	1 Year
